

Project Design Phase-II Data Flow Diagram & User Stories

Date	03 July 2026
Team ID	
Project Name	Cosmetic Insights: Navigating Cosmetics Trends and Consumer Insights with Tableau
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [\(Simplified\)](#)

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

Example: DFD Level 0 (Industry Standard)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web User)	Dashboard	USN-1	As a user, I can view cosmetic dashboards	Dashboard displays successfully	High	Sprint-1
Customer (Web User)	Brand Analysis	USN-2	As a user, I can compare cosmetic brands	Brand comparison is shown	High	Sprint-1
Customer (Web User)	Price Analysis	USN-3	As a user, I can analyze product prices	Price charts are displayed	High	Sprint-1
Customer (Web User)	Skin Type Analysis	USN-4	As a user, I can view skin-type insights	Skin-type visualization is available	Medium	Sprint-1
Administrator	Data Management	USN-5	As an admin, I can manage cosmetic data	Dataset updates successfully	High	Sprint-2
